3D Prototyping
Design Research

experience

June '08 - present | Detroit, MI
GENERAL MOTORS
INTERACTION DESIGNER
Member of both domestic and international, multidisciplinary design/concept teams within General Motors. Responsibilities include foundational research, project management, university collaboration, concept design and testing. Introduced and demonstrated User Centered Design practices for future integration into the General Motors design process.

May '07 - August '07 | Pittsburgh, PA
TESSERA
USER EXPERIENCE RESEARCH AND
INTERACTION DESIGN INTERN
Developed conceptual solutions to unmet needs of mobile phone users based on conceptual inquiry research process results.

May '07 - August '07 | Pittsburgh, PA
GENERAL MOTORS
INTERACTION DESIGN INTERN
Created and prototyped concept instrument panels for future GM vehicles.

August '06 - May '08 | Pittsburgh, PA
CARNEGIE MELLON 3D LAB
MONITOR
Managed the Design 3D Lab. Helped students understand how to move from concept to execution of 3D models as well as proper use of lab equipment.

university collaboration

July '09 - July '10 | Detroit, MI
**LAWRENCE TECH
UNIVERSITY**
GUEST LECTURER
Lectured on the successes, failures and importance of interaction design in the automotive field.

July '09 - July '10 | Detroit, MI
**LAWRENCE TECH
UNIVERSITY**
GUEST CRITIC

January '10 - July '10 | Detroit, MI
**CARNEGIE MELLON
UNIVERSITY**
SPONSOR

Initiated, planned and sponsored both 3rd year design studio and summer internships. Worked closely with professor Wayne Chung and students to understand and explore the effects of semi-autonomy on interaction design in the automotive space.
